Tian-Zhi is a final-year PhD student at School of Advanced Manufacturing and Robotics, Peking University. Also, he is currently a visiting PhD student (Dec-2024 - Dec-2025) at Nanyang Technological University (NTU), Singapore. Prior to that, he received his B.Sc. in Mathematics from Beijing Institute of Technology (BIT) in 2021.

His research interest lies at **geometric** modeling and numerics of robotic and mechanical systems, which includes:

- **Geometric Mechanics and Control** (especially stochastic & nonholonomic systems)
- **Structure-Preserving Numerical Algorithms** (variational integrators)
- **Geometric Estimation & Filtering** (for robotic and flexible systems)
- **Physics-Informed Learning on Manifolds** (e.g., rigid-body dynamics of robots)
